## PennHIP Report

Referring Veterinarian: Dr Joe Rodier  
Email: bsah@bluespringsanimalthospital.comClinic Name: Blue Springs Animal Hospital  
Clinic Address: 1201 SW US Highway 40  
Blue Springs, MO 64015  
Phone: (816) 229-1544  
Fax: (816) 228-9364

## Patient Information

Client: JORDAN, KRISTINA  
Patient Name: LUNA  
Reg. Name: OTIS BOANERGOS INFAMOUS  
DARK LUNA  
PennHIP Num: 181423  
Species: Canine  
Date of Birth: 26 Jun 2022  
Sex: Female  
Date of Study: 09 Nov 2022  
Date of Report: 14 Nov 2022Tattoo Num:  
Patient ID: 113356  
Registration Num: W578086902  
Microchip Num: 900215004784938  
Breed: GIANT SCHNAUZER  
Age: 19 weeks  
Weight: 41.2 lbs/18.7 kgs  
Date Submitted: 11 Nov 2022

## Findings

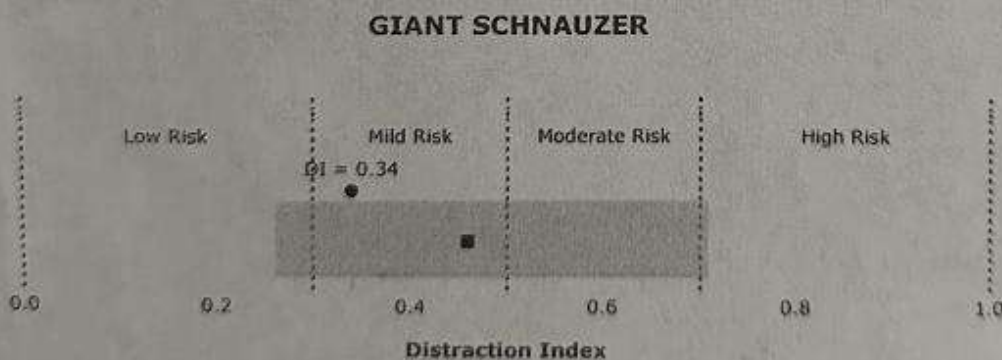

Distraction Index (DI): Right DI = 0.33, Left DI = 0.34.  
Osteoarthritis (OA): No radiographic evidence of OA for either hip.  
Cavitation/Other Findings: No cavitation present.

## Interpretation

Distraction Index (DI): The laxity ranking is based on the hip with the greater laxity (larger DI). In this case the DI used is 0.34.

OA Risk Category: The DI is between 0.31 and 0.49. This patient is at mild risk for hip OA.

Distraction Index Chart:

**BREED STATISTICS:** This interpretation is based on a cross-section of 434 canine patients of the GIANT SCHNAUZER breed in the AIS PennHIP database. The gray strip represents the central 90% range of DIs (0.26 - 0.71) for the breed. The breed average DI is 0.46 (solid square). The patient DI is the solid circle (0.34).

**SUMMARY:** The degree of laxity (DI = 0.34) falls within the central 90% range of DIs for the breed. This amount of hip laxity places the hip at a mild risk to develop hip OA. No radiographic evidence of OA for either hip.

Client: Jordan, Kristina (5058)  
Patient Name: Luna-  
000215004784938  
Species: Canine  
Breed:

Gender: Female  
Weight: 0.00 lbs  
Age: 3 Months  
Doctor: Rebecca Morrison, DVM

Pet Vet Animal Hospital  
2404 E Rock Haven Rd  
Harrisonville, MO 64701

Test	Results	Reference Interval	LOW	NORMAL	HIGH
------	---------	--------------------	-----	--------	------

Catalyst Dx (September 26, 2022 2:56 PM)

SDMA	13 µg/dL	0 - 16
TT4	2.1 µg/dL	1.0 - 4.0

Diagnostic Interpretation for TT4

< 1.0 µg/dL Low  
1.0 - 2.0 µg/dL Low Normal  
1.0 - 4.0 µg/dL Normal  
> 4.0 µg/dL High  
2.1 - 5.4 µg/dL Therapeutic

Dogs with no clinical signs of hypothyroidism and results within the normal reference range are likely euthyroid. Dogs with low T4 concentrations may be hypothyroid or "euthyroid sick". Occasionally, hypothyroid dogs can have T4 concentrations that are low normal. Dogs with clinical signs of hypothyroidism and low or low normal T4 concentrations may be evaluated further by submission of freeT4 (fT4) and canine TSH. A high T4 concentration in a clinically normal dog is likely a variation of normal; however elevations may occur secondary to thyroid auto antibodies or rarely thyroid neoplasia. For dogs on thyroid supplement, acceptable 4-8 hour post pill total T4 concentrations generally fall within the higher end or slightly above the reference range.

**HEMATOLOGY**

TEST	RESULT	REF. RANGE/UNITS
Von Willebrand Factor by ELISA <sup>a, b</sup>	157	%

**NOTES**

HEMATOLOGY

- a 70-180% = NORMAL
- 50-69% = BORDERLINE RANGE
- 0-49% = CARRIER RANGE

Referral test performed at Cornell Diagnostic Laboratory.

- b 70-180 % Normal values indicate clear for the VWD trait
- 50-69 % Borderline values indicate low or no risk for expressing a bleeding tendency; possible risk for transmitting the VWD trait.
- <50 % Carrier range indicates risk for abnormal bleeding and transmitting VWD. Clinical signs typically associated with values at low end of carrier range.
- <0.1 % Severe VWF deficiency is diagnostic for Type 3 VWD. Affected dogs experience abnormal bleeding due to a lack of VWF protein .
- > 180% High VWF often associated with systemic inflammation (infection, vasculitis, hepatopathy) or may reflect sample activation during collection. Patients with high VWF are unlikely to be VWF carriers; retest can rule out transient disease process or artifact
